Collaborate Web Conference allows for integration with the Grade Center so that you can capture attendance and assign points to students who attended the web conference session. To give points for attendance the students must be enrolled in your course. Once the session ends, you can pull an Attendance Report which will allow you to push the points to the Grade Center.

Note: These instructions assume you enabled Grade Center Integration and assigned a point value for attendance when you created your Collaborate Web Conference session.

1. Click on **Course Tools** to expand it and then select **Blackboard Collaborate**.

2. Locate the session by typing a keyword or phrase in the Search box to locate a specific session or recording. You can search by date range.
