

How to customize the courses listed on Blackboard

1. Click on the small pencil icon located on the right corner of the “My Courses” section as shown below.

2. This will take you to the “Modify Courses List” page.
3. Clear the check marks under the “Display Course Name” and the “Display Announcements” columns for the courses you would not like to see listed as indicated below.

Display Course Name	Display Course ID	Display Instructors	Display Announcements
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

The table has four columns: "Display Course Name", "Display Course ID", "Display Instructors", and "Display Announcements". The first row has a checked checkbox in the "Display Course Name" column and a checked checkbox in the "Display Announcements" column. The second row has unchecked checkboxes in all four columns. The third row has checked checkboxes in the "Display Course Name" and "Display Announcements" columns. Red circles are drawn around the checked checkboxes in the first and third rows. Red arrows point from the right edge of the page towards the checked checkbox in the first row and from the checked checkbox in the first row towards the checked checkbox in the third row.

4. Click on the **Submit** button to complete the changes. This will not remove the courses from Blackboard permanently; it just hides them from view.
