

## Discussion Boards – Add Forum Link to Content Area

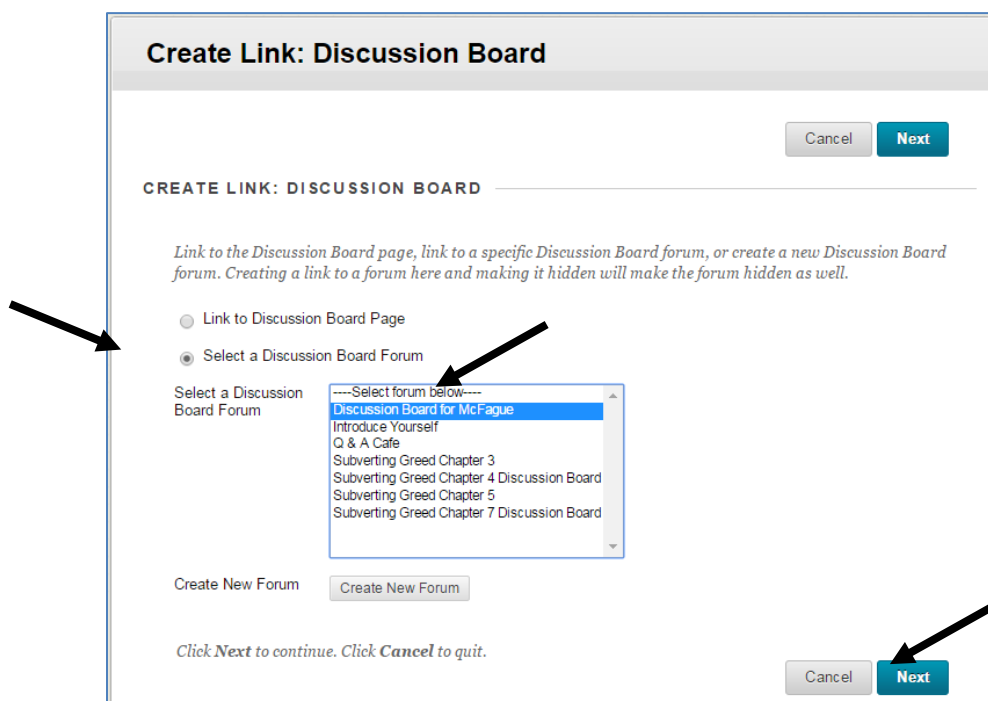

You can create a link to a discussion forum directly in a content area to make your course easier to navigate. Having a link to the discussion forum in the same area as other related content streamlines the student's experience. When setup this way, there is less searching, scrolling, and clicking in order for the students to get the required coursework for the week/unit/module and makes the course easier to navigate.

To add a link to a discussion board forum in a content area:

1. Turn Edit Mode on.
2. Go to the content area that you would like to add the link to the discussion board forum to. On the menu bar roll your mouse over **Tools** and click on **Discussion Board**.

3. Click on the "Select a Discussion Board Forum" radio button. Select the discussion board forum you want to link to from the list and click **Next**.

4. Enter assignment instructions and enter your availability options for the discussion board forum link. Click **Submit**.

### Create Link: Discussion Board

Link

Text  
For the toolbar, press ALT+F10 (PC) or ALT+FN+F10 (Mac).

Compare and contrast McFague's argument in chapter 6 of Subverting Greed with Solomon's argument in Chapter 5 of Subverting Greed.

This will prepare you for your essay. However, your essay is not just a comparison of the two articles. Read the instructions for the essay carefully and contact me if you have any questions.

The due date for this assignment is 1/26/17 at 11:59 pm. The student must post to the discussion board one day before the due date and must to respond to two posts by other students by the due date. Posts and replies to other posts must be substantive and grammatically correct.
