

The quick submit feature allows instructors to submit papers and receive Similarity Reports without creating a class or an assignment. This is ideal for instructors who would like to use Turnitin to spot check submissions and have these papers in electronic format. Quick Submit **SHOULD NOT** be used if the instructor desires to have students submit their own papers or plans on using PeerMark or GradeMark.

In order to use the Quick Submit option, the instructor has to log in to their Turnitin account natively through www.turnitin.com.

Follow the instructions in these resources to submit papers through Quick Submit:

- [Help Guide for Activating Quick Submit](#)
- [How to Submit via Quick Submit](#)
