<H2>What is Coffee?</H2>

<P>
If you don't know what coffee is, you obviously have not been raised by
human beings.  Only a space alien or a feral child could remain
ignorant of coffee in this day and age.
</P>

<P>
Coffee is a hot beverage brewed from a certain kind of bean that grows
on a certain kind of plant.  I really don't know that much about it.
In fact, you're not really supposed to be reading this text so closely.
This page was created for a tutorial about Web pages, not to provide
actual information about coffee.  After all, as Gertrude Stein said:
</P>

<BLOCKQUOTE>
"Coffee is real good when you drink it it gives you time to think. It's
a lot more than just a drink; it's something happening. Not as in hip,
but like an event, a place to be, but not like a location, but like
somewhere within yourself. It gives you time, but not actual hours or
minutes, but a chance to be, like be yourself, and have a second cup."

<H2>A Poem by Pope Leo XII</H2>

<PRE>
"Last comes the beverage of the Orient shore,
Mocha, far off, the fragrant berries bore.
Taste the dark fluid with a dainty lip,
Digestion waits on pleasure as you sip."
